

App Descriptions

Ready-to-use descriptions for press coverage, App Store features, and marketing materials.

Short Description

~50 words

Bible Verses Meaning brings original Hebrew and Greek word studies to your fingertips. Tap any word for AI-powered insights grounded in Strong's Concordance. Ask any question and get structured biblical answers with key passages and practical wisdom. No theology, just linguistics.

Medium Description

~100 words

Bible Verses Meaning is an iOS Bible study app that makes original Hebrew and Greek accessible to everyone. Tap any word in the KJV to see its Strong's Concordance definition, then go deeper with AI-powered word studies that explain historical context and practical application. Unlike devotional apps that offer theological interpretation, Bible Verses Meaning focuses on linguistics—what words actually mean—letting readers draw their own conclusions. Features include unlimited Word Studies, Biblical Insights for open-ended questions, figurine dioramas of biblical authors and characters, and a daily verse widget with meaning. 7-day free trial. U.S. App Store price: \$60/year or \$10/month. Other App Store storefronts display their exact local price and currency in the app.

Full Description

~200 words

Bible Verses Meaning is an AI-powered Bible study app that gives everyone access to original Hebrew and Greek word meanings—no seminary degree required.

Most Bible apps provide devotionals shaped by denominational theology. Bible Verses Meaning takes a different approach: linguistics over theology. Every colored word in the King James Version is linked to Strong's Concordance, the definitive index of biblical Hebrew and Greek. Tap any colored word to see its original meaning, pronunciation, and usage frequency. Then go deeper with AI-powered Word Studies that explain what the author was saying in historical context and how it applies to your life today.

The app also features Biblical Insights—ask any question like "What does the Bible say about anxiety?" and receive a structured response with key passages, original word meanings, and practical wisdom. No theological spin, just what the Bible says.

Unique to Bible Verses Meaning are figurine dioramas depicting biblical authors and characters in historically accurate settings. See Moses at the burning bush, Paul writing in chains, David with his harp. Helping bring the Bible to life.

Additional features include a home screen widget delivering daily verses with meaning, full offline access to the KJV Bible, and a clean, distraction-free reading experience.

Built by Nexus Opportunity Holdings LLC. Available on iOS with a 7-day free trial.
U.S. App Store price: \$60/year (just \$5/month) or \$10/month billed monthly.
Other App Store storefronts display their exact local price and currency in the app.
